Gainesville, Florida 32611

Gentlemen:

SUBJECT: DOCKET NO. 50-83

This acknowledges the receipt of your letter of July 10, 1985, which transmitted Revision 8 to the University of Florida Training Reactor Physical Security Plan.

Our review of the changes has found portions of the changes to be consistent with the provisions of 10 CFR 50.54(p). One portion is not consistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter. To preclude a violation of regulatory requirements, you must not continue to implement the change deemed inconsistent. On July 23, 1985, Ms. O. Masnyk of Region II discussed our concerns with Mr. W. Verneston. Please revert to the commitment in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

It has been determined that your submittal contains information of a type specified in 10 CFR 2.790(d). It is, therefore, deemed to be commercial or financial information within the meaning of 10 CFR 9.5(a)(4) and shall be subject to public disclosure only in accordance with the provisions of 10 CFR 9.12.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, activities involving safeguards and security measures are exempt from public disclosure; therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

8508050189 850730
