SAFEGUARDS INFORMATION REMOVED

Gentlemen:

SUBJECT: DOCKET NOS.: 50-269, 50-270, AND 50-287

This acknowledges the receipt of your letter of May 16, 1985, which transmitted Revision 14 to the Oconee Physical Security Plan.

Our review of the change has found it to be inconsistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter. To preclude a violation of regulatory requirements, you must not continue to implement those changes deemed inconsistent. On July 29, 1985, Ms. C. Perny of Region II discussed our concerns with Mr. R. Cross of your staff. Please revert to the commitment in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,
