Operating Reactors Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Mr. Domenic B. Vassallo, Chief

Subject: Revisions to Expedited Technical Specification Change
on Single Loop Operation
Cooper Nuclear Station
Docket No. 50-298

Reference: 1) Letter from L. G. Kunch to D. B. Vassallo dated
September 20, 1985, "Expedited Technical Specification
Change - Single Loop Operation"

The District requested an expedited Technical Specification change for single loop operation at Cooper Nuclear Station (CNS) and submitted proposed Technical Specification pages in Reference 1. Resolution of subsequent staff questions resulted in changes to several of the proposed Technical Specification pages. For completeness, the District is submitting these revised pages along with the remainder of pages submitted in Reference 1.

This submittal incorporates all amendments to the CNS Facility Operating License up to and including Amendment 93 issued June 3, 1983.

In addition to three signed originals, 40 copies are also submitted for your use. Should you have any questions, please contact me.

Sincerely,

Jay M. Pilant
Technical Staff Manager
