Re Amendment of License 21-00215-04

Gentlemen:

Attached is an application to amend license 21-00215-04 issued to The University of Michigan. We are requesting permission for the purchase and use of an AECL Gamma cell-1000 irradiator containing a nominal 2400 Curies of Ce-137 for the irradiation of blood and blood components.

The application has been reviewed by the Radiation Policy Committee. If there are any questions please contact me.

Yours truly,

Arthur J. Solari
Director
