John Schenk, President
Environmental Control Technology, Inc.
3985 Research Park
Ann Arbor, MI 48108

SUBJECT: NRC INSPECTION AND NOTICE OF VIOLATION

Dear Mr. Schenk:

This refers to the inspection conducted on October 21, 1996 at the 3985 Research Park location, with continuing review through November 18, 1996. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with Mr. Stan Smith of your staff by telephone conference on November 28, 1996.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, independent measurements and observation of activities in progress.

Based on the results of this inspection, and information provided in a letter dated November 14, 1996 from Dale A Scherger, Vice President of Engineering and Technology, Rollins Environmental Services Inc., the NRC has determined that violations of NRC requirements occurred. The violations are cited in the enclosed Notice of Violation (Notice). A written response is required.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document
