Mr. John A. Zwolinski  
Chief, Operating Reactors Branch No. 5  
Nuclear Reactor Regulation  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Zwolinski:

On November 12, 1985, the Committee on Joint Ownership will be holding its fall meeting to discuss problems and issues of minority owners in shared ownership of power plants. Members of this committee are managers and the top staff of the cooperatives which have been financed with loan guarantee funds of the Rural Electrification Administration. There will probably be 50 to 75 members in attendance.

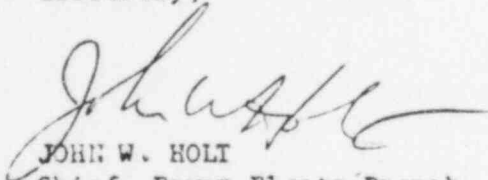

As a moderator for the panel on decommissioning, I will be introducing guest speakers from the industry to give a 15 to 20 minute presentation on their specialty, followed by a brief question and answer period.

I have asked Mr. Peter Ericson, Project Manager, to speak on the status of decommissioning of existing reactors, such as Humboldt Bay, as well as to briefly touch on proposed regulations.

Permission for Mr. Ericson's attendance at the meeting is hereby requested. The location of the meeting is at the National Rural Electric Cooperative Association headquarters, 1800 Massachusetts Ave., N.W., Washington, D.C., 20036 (DuPont Circle). The decommissioning panel will be meeting from 10:45 a.m. to 12 Noon.

Thanking you in advance.

Sincerely,

  
JOHN W. HOLT  
Chief, Power Plants Branch  
Engineering Standards Division
