Mr. Peter Goldman, Director
Management Development and Training
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Pete,

Enclosed is the proposal for a long-term evaluation of NRC's career counseling program which we discussed on October 31st when we met in your officie. I feel this would be a worthwhile undertaking and would document NRC's counseling effort as an exemplary one.

When Lillian returns, we would like to discuss the program, in general, for 1983, both at headquarters and in the regions, so that BEMW will have a sense of our direction for the next few months.

Best wishes for a happy new year.

Sincerely,

Irene N. Mendelson
