Gentlemen:

Subject: Inspection No. 030-06265/85-02

This refers to the special inspection conducted by Mr. Thompson of this office on April 9, 1985 at the Hinkles and McCoy Construction site off Highway 1, near Fallsington Pennsylvania, of activities authorized by NRC License No. 37-11636-01 and to the discussions of our findings held by Mr. Thompson with Roland Dellarciprete of your staff at the conclusion of the inspection, and to a subsequent telephone discussion between Mr. Thompson and yourself on April 10, 1985.

The area examined during this inspection was limited to your conduct of radiography operations at a temporary field site. This inspection was conducted as the result of a telephone notification by a private citizen of apparent activities in violation of NRC requirements. As noted below, our inspector found that the citizen's observations were accurate. Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. This violation has been categorized by severity level in accordance with the revised NRC Enforcement Policy (10 CFR 2, Appendix C) published in the Federal Register Notice (49 FR 8583) dated March 8, 1984. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
