Dear Sir:

Subject: Docket Nos. 50-361/50-362
Monthly Operating Reports for July 1985
San Onofre Nuclear Generating Station, Units 2 and 3

Enclosed are the Monthly Operating Reports as required by Section 6.9.1.10 of Appendix A, Technical Specifications to Facility Operating Licenses NPF-10 and NPF-15 for San Onofre Nuclear Generating Station, Units 2 and 3, respectively.

A revised June 1985 Unit Shutdown and Power Reductions sheet for Unit 3 is included. The revision is necessitated by the discovery of an error in the sequential number of the unit shutdowns and power reductions. Also, a revised June 1985 Operating Status Report for Unit 2 is included, which was necessitated by an error in the cumulative hours generator on line. The affected portions of these reports have been annotated with an asterisk.

Please contact us if we can be of further assistance.

Sincerely,

H. E. Morgan/man
