Dear Ms. Dick:

This is in response to your letter dated August 30, 1985, to the Nuclear Regulatory Commission (NRC) in which you requested a compilation of all "violations, contaminations, and permits" relating to the Sequoyah Fuels Corporation Facility near Gore, Oklahoma. All the information requested can be reviewed at the NRC's Local Public Document Room located at the Sallisaw City Library, 111 North Elm Street, Sallisaw, Oklahoma. I assume copying facilities are also available to you at the library.

You also requested a copy of our Regulations on Radioactive Wastes. Enclosed is a copy of Title 10, Code of Federal Regulations (10 CFR), Parts 60 and 61, which deal with the disposal of radioactive wastes and a copy of 10 CFR Part 20, Standards for Protection Against Radiation, which discusses waste disposal starting with Section 20.301.

Sincerely,

Original signed by:
