Dear Sir/Madam;

I am writing to your agency for the compilation of all the violations, contaminations, and permits that have been granted to Kerr-McGee Corporation subsidiary- Sequoyah Fuels, located in Oklahoma near Gore. I would also like to have the record of the dates all permits that expire at this facility. I would like to acquire all this information since the beginning of their operations. Also, would you please send me a copy of your agencies regulations on radioactive wastes? Your assistance will be most appreciated, thank you.

Georgia Dick
