Dear Mr. Guinn:

Re: Letter file 08846 - Harvard

George Kligfied and I discussed a recent license submission for a unit called Gammacell 10. Information was not at hand to identify the unit by a previous model number, namely a Gammator.

Enclosed are copies of previous correspondence with the AEC and NRC showing the unit as acceptable for licensing, and the name correlations. A brochure describing the unit in general terms is also enclosed.

Very truly yours,
