1101 Market Street
Chattanooga, TN 37402-2801

Gentlemen:

SUBJECT: REPORT NOS. 50-327/85-17 AND 50-328/85-17

Thank you for your response of August 28, 1985, to our Notice of Violation issued on July 30, 1985, concerning activities conducted at your Sequoyah facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. We will examine the implementation of your corrective actions during future inspections.

With respect to Violation 50-327/85-17-02, your response is contradictory and partially incorrect. In parts 1 and 3 of your response, you admit the violation and state that you retrained the individual on the procedures to be followed. However, part 2 states that his actions were not in violation of practices taught during previous training. This is not correct. The NRC inspector observed that the individual continued to work for an extended period without proper protective clothing and did not expeditiously stop work and leave the area. Since your corrective action addresses the issue, no further response is required.

We appreciate your cooperation in this matter.

Sincerely,

Original Signed by
Roger D. Walker
