Attn: Rose Douglas

RE: License No. 12-21501-01

Gentlemen:

This correspondence is written to you in reference to your letter dated May 24, 1985. I apologize for the late response. Our manager of the Detroit Office is no longer with us, so it's slow putting the needed information together.

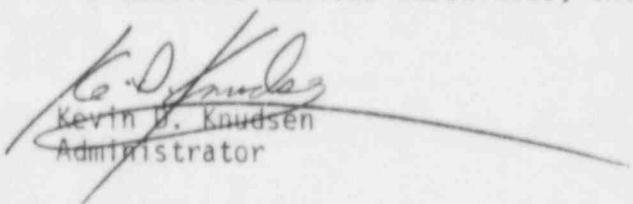

In response to the cited non-conformities, to ensure they will not happen again, we are shutting down the licensed operations in this location and will in the near future request termination of this license.

Investigation into the non-conformities and explanation will be submitted by Mr. James Standen, the Michigan Testing Engineers Division Radiation Safety Officer in the near future. You may contact him at 1-313-255-4200.

If you have any further questions please contact Mr. Standen or myself.

Sincerely

PROFESSIONAL SERVICE INDUSTRIES, INC.

Kevin W. Knudsen
Administrator

CC: J. Standen
