Change Request

Gentlemen:

By letter dated November 26, 1996 (1CAN119608), Entergy Operations submitted a request to change the Arkansas Nuclear One - Unit 1 (ANO-1) Technical Specifications to revise the service period reflected in specification 3.1.2. In the referenced letter, Entergy Operations stated that FTI calculations 32-1245917-00 and 32-1257716-00 would be submitted to the staff under a separate cover letter. These FTI calculations have been included in this letter as ANO calculations 96-E-0057-02 and 96-E-0057-03 in Attachments 1 and 2 respectively.

Each of the referenced calculations is marked as FTI proprietary; however, attached as the last page to each of these calculations is the FTI disclosure letter (INS-96-7661) stating that there are no restrictions placed on these documents. If you have any questions, please contact me or a member of my staff.

Very truly yours,

Dwight C. Mims
Director, Nuclear Safety
