Docket No. 50-344

Portland General Electric Company
121 S. W. Salmon Street
Portland Oregon 97204

Attention: Mr. Bart D. Withers
Vice President Nuclear

Gentlemen:

This letter concerns unescorted access of NRC and NRC contractor employees to your facilities for the purpose of observing your annual emergency exercise. Access to the site will be required intermittently from October 14 through October 18, 1985.

The team members have been listed in the enclosure to this letter. The NRC Region V members of the team were included in attachment 1 to the August 1, 1985 letter sent to you that concerned admittance of NRC personnel to your facility. I am requesting that the NRC and contractor personnel identified in the enclosure to this letter be issued no escort required picture badges as authorized by 10 CFR 73.55(d)(5) for prompt access to all areas of your facility. The Department of Energy (DOE) "Q" and "L" clearances equal or exceed your screening requirements.

The personnel identified in the enclosure to this letter have completed indoctrination training in radiological protection, emergency response and security comparable to that furnished by you to regular site employees granted unescorted access. Any additional training provided by you to these team members should be limited to site specific matters required for the individuals' safety.

Should you have any questions concerning the above, please contact Mr. K. M. Prendergast, who will be the Team Leader, at (415) 943-3851.

Sincerely, Original Signed by
John B. Martin

ENCLOSURE

This certifies that the persons listed below are employees or contractors of the U.S. Nuclear Regulatory Commission. To the extent of our knowledge, these persons do not possess adverse character traits or indications of aberrant behavior. These persons have been screened to the national level (to include a criminal records check) and no disqualifying offenses were noted. Their trustworthiness has been determined by a review of the individual's employment records. Based on the above, I recommend that these individuals be granted unescorted access to all areas of your facility.
