

RSB

OCT 01 1985

Docket No. 50-528

Arizona Nuclear Power Project
P. O. Box 52034
Phoenix, Arizona 85073-2034

Attention: Mr. E. E. Van Brunt, Jr.
Executive Vice President

Gentlemen:

Enclosed is a copy of the FEMA report titled "Palo Verde Nuclear Generating Station Site-Specific Offsite Radiological Emergency Preparedness Alert and Notification System Quality Assurance Verification." The transmitting August 16, 1985 letter from FEMA to the NRC (copy also enclosed) states that "FEMA has determined that the alert and notification system...satisfies the requirements of NUREG-0654/FEMA-REP-1, Rev. 1, and FEMA-43." It is our conclusion that, based on this report, there is a means for notifying and providing prompt instructions to the public within the plume exposure pathway Emergency Planning Zone around the Palo Verde Power Plants.

Sincerely,

151

F. A. Wenslawski, Chief
Emergency Preparedness and
Radiological Protection Branch
