Inspection Summary

Inspection Conducted May 6-10, 1985 (Report 50-298/85-17)

Areas Inspected: Routine, unannounced inspection of the physical security plan (PSP) and implementing procedures, security organization, management effectiveness, testing and maintenance, physical barriers - protected and vital areas, audits, compensatory measures, assessment aids, communications, guard training and qualifications, detection aids - protected and vital areas, and alarm stations. The inspection involved 42 direct inspector-hours by one NRC inspector.

Results: Within the areas inspected, no violations or deviations were identified. Two unresolved items are identified in paragraph 3.
