FROM: Leon L. Beratan, Chief  
Earth Sciences Branch  
Division of Radiation Programs

SUBJECT: RES REVIEW OF GENERIC TECHNICAL POSITION (GTP) ON "DESIGN  
INFORMATION NEEDS IN THE SITE CHARACTERIZATION PLAN"

As requested in your memorandum dated September 9, 1985, we have reviewed the above report. Our comments are provided in the enclosed marked-up copy. In addition we have the following suggestions.

1. The report should be thoroughly edited for clarity before it is circulated outside the agency.
2. Regulatory Guide 4.17 should be cross referenced in the text so that the reader can tell which part of Regulatory Guide 4.17 is being augmented by the GTP.

If you have any questions or would like further clarification of these comments, please contact J. Philip of my staff on X74604.

Leon L. Beratan, Chief
