

JAN - 3 1997

Ms. Vicki D. Jeffs, Supervisor  
Radioactive Materials Unit  
Radiation and Toxic Agents Control Section  
Cabinet for Health Services  
275 East Main Street  
Frankfort, KY 40621-0001

Dear Ms. Jeffs:

I am responding to your November 14, 1996 letter on reciprocity/jurisdiction.

Earlier this year the enclosed standard license condition, for use on Nuclear Regulatory Commission (NRC) temporary jobsite licenses, was sent to the Regional licensing programs for review and comment along with proposed revisions to the procedures and guidance concerning reciprocity. This action was taken in conjunction with the development of a rulemaking plan proposing minor revisions to 10 CFR 150.20, "Recognition of Agreement State licenses" which addresses reciprocity and the recognition of Agreement State licenses. Staff is currently incorporating the comments received into the procedures and guidance, to include the new standard license condition, for final issue to the Regional licensing programs.

I appreciate your bringing this matter to my attention.

Sincerely,

Original Signed By:  
PAUL H. LOHAUS

Enclosure:  
As stated

Proposed License Condition for NRC Licensees  
to Include on Temporary Job Site Licenses

Radioactive material shall be used only at the following:

- A. 2345 High Water Avenue, City, State
- B. Temporary job sites anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating licensed material including areas of exclusive Federal jurisdiction within Agreement States.

If the jurisdictional status of a Federal facility within an Agreement State is unknown, the Federal agency controlling the job site in question should be contacted to determine whether the proposed job site is in an area of exclusive Federal jurisdiction. Authorization for use of radioactive materials at job sites in Agreement States not under exclusive Federal jurisdiction shall be obtained from the appropriate State regulatory agency.

If NRC did not revise  
temporary job site licenses, we  
will probably want to meet with  
NRC to discuss this issue.  
Let's try to respond to Jeffs no  
later than end of December.
