

JAN - 6 1997

Edgar D. Bailey, C.H.P., Chief  
Radiologic Health Branch  
Department of Health Services  
714/744 P Street  
P.O. Box 942732  
Sacramento, CA 94234-7320

Dear Mr. Bailey:

This letter addresses the issue of continued funding of training and travel for State of California staff conducting work under the Section 274b Agreement with the Nuclear Regulatory Commission (NRC). Your letter of November 6, 1996 requests that NRC continue to fund reasonable training and travel expenses through June 30, 1997. You asked to be informed of the steps necessary to receive NRC funding support. Dennis Sollenberger discussed this information with you by telephone on December 18, 1996.

While we recognize the need for training and your current funding shortfall, the Commission, in SECY-95-017, specified the conditions under which the staff could continue funding for certain Agreement States. The situation in California, as you have described it, does not meet the conditions approved by the Commission. Therefore, NRC will not be able to continue to fund training and travel for your staff through June 30, 1997, as requested. Please note, however, by fax note from Paul Lohaus, Deputy Director, Office of State Programs, dated November 8, 1996, the Radiation Control Program Directors were notified that the Commission has approved Agreement State personnel attendance at NRC training courses without charge, on a space available basis, consistent with the Commission's preliminary views on Direction Setting Issue #4, "NRC's Relationship with Agreement States." Agreement States are responsible for travel and per diem expenses associated with course attendance.

We appreciate the suggestion of moving certain courses around the country to reduce travel expenses. This has been done in the past and we will consider it in the future when need is identified for a specific State or region. We will work with the Technical Training Division to assess whether this might be feasible for future fiscal years.

For further information on this subject, please contact me at 301-415-3340 or Dennis Sollenberger at 301-415-2819.

Sincerely, <sup>Original Signed By</sup>  
RICHARD L. BANGART

I discussed the criteria in SECY-95-017 with Mr. Bailey and he agreed that California could have submitted a request in June 1995, but they did not do so. Therefore, they do not qualify and they may not be able to participate in NRC training until July 1997 at the earliest.

Dennis Gollenberger  
12/18/96

Dennis -

In the response please note our FY 97 budget was formulated with no knowledge of his request and that we have limited funds available, given that we are already 1/3 of the way through the FY. Let's respond within 30 days.
