Mr. James Zimmerman
Assistant Director
Export/Import and International Safeguards
Office of International Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

XSNM01541
amend 04
United Kingdom

Subject: NRC Export License XSNM01541, UK(ICI); Request for Amendment.

Dear Mr. Zimmerman:

GA Technologies (GA) makes application, pursuant to 10 CFR 110, for amendment to subject license to extend expiration date for five years from date of issuance of amendment. The present license expires September 1, 1985. The amendment should extend it to September 1, 1990.

GA is engaged in the manufacture and sale of nuclear reactors, nuclear instrumentation systems, components therefor, and cooperative research in the development and testing of the components and fuels for research reactors. In the normal servicing of our research reactors we are required to provide replacement equipment and materials. In this instance we will continue to supply standard TRIGA fuel elements to the reactor at the ICI facilities in the United Kingdom.

We will appreciate it if you will expedite the issuance of the amendment to this license.

If you have questions, please contact me at (619) 455-2823.

Very truly yours,

William R. Mowry
Licensing Administrator
