Gentlemen:

SUBJECT: EDWIN I. HATCH OPERATOR AND SENIOR OPERATOR REQUALIFICATION EXAMINATIONS

This refers to our letter of April 24, 1985, which confirmed arrangements for the administration of requalification examinations at the Edwin I. Hatch Nuclear Plant. We stated in that letter that we would provide you with a list of licensed operators, along with several alternates, that were selected to be examined. Enclosed herewith is the list of selected examinees.

Eleven individuals identified in the enclosure will be administered a requalification examination on July 15, 1985. A random selection process was used in determining the identity of examinees for both the written and simulator examinations.

We have also selected five alternate examinees for the examinations. They are also identified in the enclosure. They will be examined in lieu of the selected candidates only when those individuals selected cannot be made available and adequate justification exists for granting the substitution. If you find this to be necessary, please notify us immediately by telephone.

If you have any questions concerning this matter, please contact Mr. Ken Brockman at 404/221-2694.

Sincerely,

(Original signed by VLBrownlee)
