Gentlemen:

SUBJECT: DOCKET NOS. 50-327 AND 50-328 SEQUOYAH NUCLEAR PLANT RADIOLOGICAL
EMERGENCY PLAN REVIEW

We have completed our review of Revisions 16, 17, and 18 of the Sequoyah Radiological Emergency Plan dated January 7, January 15 and February 25, 1985, respectively.

Our review indicated that your Sequoyah Radiological Emergency Plan continues to meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to your plan which may decrease the effectiveness of the Plan. However, if your safety review indicates no decrease in emergency preparedness, then changes can be made without NRC approval. In all cases, you should furnish copies of each change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR 50, Appendix E, Section V (Implementing Procedures).

Should you have any questions regarding this letter, please contact T. R. Decker of our staff at 404/221-2604.

Sincerely,
