OFFICE OF THE
SCHOOL DISTRICT
BRANCH

Dear Mr. Margulies:

Please be advised that the Malverne U.F.S.D. Agreement to cooperate with the Red Cross in the event of a national disaster was not intended to indicate any agreement or disagreement with the opening of the LILCO Plant at Shoreham.

We would be most cooperative with the American Red Cross if an emergency occurred involving Long Island residents; however, we do not condone LILCO's implication that our school district has given them consent to use our facilities.

Thank you for the opportunity of clarifying this matter.

Sincerely yours,

James J. Tolle

BRANCH

SERVED AUG -6 1985

Mr. Frank M. Rasbury
Executive Director of Nassau County
Chapter of the American Red Cross
264 Old Country Road
Mineola, New York 11501

Dear Mr. Rasbury:

I have recently become aware that the American Red Cross and the Long Island Lighting Company have designated Syosset Central School District as a relocation center in the event of a radiological emergency at the Shoreham Nuclear Power Station.

Please be advised that the Syosset Central School District has not entered into any agreement with the American Red Cross or LILCO to serve as a relocation center, or as a decontamination and monitoring facility, for a Shoreham emergency. Any such agreement would have to have been approved by the Syosset Central School District, and no such approval has been granted. Syosset School District has permitted the American Red Cross to list our District as a mass care shelter, but that listing does not grant the American Red Cross or LILCO permission to use our facilities as a relocation center, or as a decontamination and monitoring facility, pursuant to LILCO's proposed plan to deal with a radiological emergency at Shoreham.

In addition, the Governor of the State of New York has determined that the State of New York will not participate in the implementation of the offsite radiological emergency response plan for Shoreham proposed by LILCO. In accordance with the Governor's position, Syosset Central School District will not be available to the American Red Cross or LILCO for use in implementing the LILCO plan.

Consequently, as Superintendent of Schools and Chief Executive Officer of the Syosset Central School District, I am advising you that we have not entered into any agreement to serve as a relocation center, or as a decontamination and monitoring facility, in the event of a radiological emergency at Shoreham.

Very truly yours,

Philip E. Tieman
Superintendent of Schools
