Gentlemen:

We have received copies of the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the Point Beach Nuclear Plant Unit Nos. 1 and 2:

1. A March 16, 1984 application, as modified September 25, 1984, for Technical Specification changes relating to the deletion of snubbers and other administrative changes. A Class II fee (\$1,200) and a Class I fee (\$400) were remitted with your application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.
2. A May 30, 1985 application for exemption from General Design Criteria No. 4. Fees pursuant to the June 20, 1984 revision to 10 CFR 170 were not remitted with your application.

Based on information provided by the ONRR staff, it has been determined that:

1. A Class III fee (\$4,000) is appropriate for that portion of your application relating to snubbers since the review involved consideration of a single safety issue, a Class II fee (\$1,200) is appropriate for the remaining items since the changes were administrative in nature, and a Class I fee (\$400) is appropriate for the duplicate unit. These changes were approved with the issuance of Amendment Nos. 91 and 95 dated April 8, 1985.
2. An application fee of \$150 should be remitted for Item 2 since the June 20, 1984 revision to 10 CFR 170 requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other request.
