Mr. C. W. Fay, Vice President
Nuclear Power Department
Wisconsin Electric Power Company
231 West Michigan Street, Room 308
Milwaukee, Wisconsin 53201

Dear Mr. Fay:

SUBJECT: SAFETY EVALUATION FOR POINT BEACH UNITS 1 AND 2, GENERIC LETTER
83-28, ITEM 1.1 (POST TRIP REVIEW)

We have reviewed your November 7, 1983 response to Generic Letter 83-28 concerning the subject item. Our safety evaluation is enclosed. We have determined that your response meets our guidelines for post-trip review except in two areas:

1. The method and criteria for comparing the event with known or expected plant behavior.
2. The development of a systematic safety assessment program to assess unscheduled reactor trips.

Further details are contained in the safety evaluation.

We request that you address the staff's recommendations as described in section III of the safety evaluation and either commit to following the recommendations or provide adequate justification for not doing so. We request your response within 45 days of your receipt of this letter. Our review of your response will be addressed in a supplement to this safety evaluation.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

If you have any questions, please contact T. G. Colburn at (301) 492-4709.

Sincerely,

original signed by:

Edward J. Butcher, Acting Chief
Operating Reactors Branch No. 3
Division of Licensing
