Mr. John Potter  
U.S. Nuclear Regulatory Commission  
Region II  
101 Marietta St. N.W.  
Atlanta, Ga. 30303

Mr. Potter:

As a result of our current inspection, a meeting of the Principals of RMS took place May 31, 1985, where the following Resolution and Amendment were adopted.

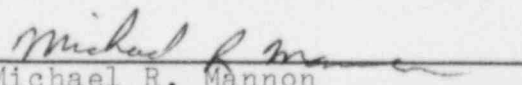

Resolved: That the calibration of Survey Meters needs close monitoring in order to comply with specifications set up in our Radiation Protection Manual.

Amendment: 1. The calibration report will be placed on the company bulletin board and a copy shall be placed with each instrument.

2. The calibration due dates shall be marked on the company calendar.

If there are any questions concerning these measures, please advise.

Sincerely,

  
Michael R. Mannon  
Senior Vice-President
