*Richard Keimig*

**From:** Larry Nicholson  
**To:** SAP, JTW1, ARB, RRK  
**Date:** 9/5/96 9:50am  
**Subject:** Next SAP Mtg

James Wiggins, RI (JTW1)  
A. Randolph Blough (ARB)  
Richard Keimig (RRK)

The next SAP is scheduled for 1pm, september 26, DRP conf room. A final agenda will be sent later, but I wanted to get a rough outline out, since it looks like DRS will have a large role to make this meeting a success. The draft agenda as follows:

- 1) SRI presents functional area overview
- 2) DRS presents their inspection plan regarding the integrated test program, to include schedule and identification of resources needed.
- 3) DRS presents recommendations for security concerns as related to restart and 0350 checklist.
- 4) DRS presents update on recent EP inspection and identification of additional actions needed to support restart.
- 5) DRS presents inspection plan to address evaluation of PSE&G licensing basis review effort.
- 6) DRP presents schedule as we know it and suggests necessary NRC actions to support key milestones.

Note that the state of NJ will be invited from now on, so we need to maintain our usual discipline and professionalism. Thanks for your support of this important meeting.
