General Electric Company  
ATTN: Mr. J. A. Long, General Manager  
Wilmington Manufacturing Department  
P.O. Box 780  
Wilmington, North Carolina 28402

Gentlemen:

SUBJECT: SUMMARY OF THE JULY 10, 1984 MEETING WITH GENERAL ELECTRIC

This refers to the special meeting held at the Region II office on July 10, 1984, to discuss the denial by General Electric of a violation concerning statistical methods used to determine measurement control limits. The subjects discussed at this meeting and a list of the attendees are presented in the enclosed Meeting Summary and Attachment A, respectively.

It is our opinion that the meeting was beneficial and resulted in a better understanding of the issues. As discussed in a telephone conversation on July 24, 1984, between Mr. C. M. Vaughan of your staff and Mr. K. P. Barr of this office, we have reviewed the issues discussed in the July 10, 1984 meeting, and continue to believe that the violation did occur. You are hereby required to submit to this office, within 30 days of the date of this letter, a response in accordance with the Notice of Violation issued October 31, 1983.

In accordance with 10 CFR 2.790(d) and 10 CFR 73.21, safeguards activities and security measures are exempt from public disclosure; therefore, Attachments B & C to the Enclosure to this letter will not be placed in NRC's Public Document Room.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,
