Docket No. 40-3453

MEMORANDUM FOR: Douglas Weiss
License Fee Management Branch

FROM: Pete J. Garcia, Jr., Project Manager
Licensing Branch 2
Uranium Recovery Field Office, Region IV

SUBJECT: FEE ASSESSMENT FOR AMENDMENTS NO. 11 and 20 TO SUA-917

This is in response to your request via telecon on July 10, 1985. As I indicated in the telecon, Amendments No. 11 and 20 to SUA-917 both involved protection of the tailings dam at the Atlas Minerals Mill from flood flows in Moab Wash. The amendments were issued to incorporate into SUA-917 different approaches to be utilized to protect the tailings dam during the operational and reclamation phases. We therefore consider the amendments to be covered under a single, minor amendment fee.
