Dear Dr. Mallet:

Enclosed you will find the Morton Arboretum's application for license renewal. After review of our current license, significant changes have been made in our gauge program. These are outlined in the application. Several of the changes in the application are amendments to the license for the purpose of obtaining an additional moisture/density gauge. Additionally, we have incorporated the suggestions given by Dr. Jim Lynch who inspected this facility several years ago. We welcome an inspection during this license renewal as we believe it will allow us to develop a better radiation protection program.

Sincerely,

Patrick Kelsey
