Dear Dr. Vazquez:

In accordance with our telephone conversation of April 16, 1985, enclosed are copies of our letters dated December 19, 1984 and February 12, 1985, informing you that a \$120 amendment fee is required for your November 27, 1984 request for an amendment to Materials License 56-16660-02 to change the authorized place of use.

You indicated that the letters had not been brought to your attention and that it is not your intention to abandon the application. Therefore, the \$120 fee is due and payable. As indicated in the previous letters, payment should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention at our Washington, D.C. address. When submitting the fee, please refer to CONTROL NUMBER 50422.

Please be advised that, unless we hear from you within 30 days from the date of this letter, we will consider your application as being abandoned.
