

27-7

Mr. Rabb Sagendorph, Publisher
YANKEE INCORPORATED
Dublin, New Hampshire

Dear Mr. Sagendorph:

This acknowledges your letter of March 15, 1958, in which you refer to the proposed issuance of an AEC license to Isotopes Specialties Company, Inc.

By notice published in the Federal Register on March 7, 1958, the Atomic Energy Commission proposed the issuance of a Byproduct and Source Material License to Isotopes Specialties Company, Inc., to provide radioactive waste disposal services unless a request for a formal hearing was presented in the manner set forth in AEC regulations 10 CFR Part 2 (copy attached) within the period of time prescribed in such notice.

Your attention is directed to Sections 2.102(b) and 2.705(a) of the attached regulation. Please note that a formal hearing may be requested only by an applicant or an intervenor. Interested persons may intervene by following the procedures described in Section 2.705(a).

The AEC has reviewed the application submitted by Isotopes Specialties Company, Inc., and determined that the licensed material can be handled and disposed of in accordance with Federal Regulations. The factual basis for such determination is provided, for your information, in the attached memorandum, published in the Federal Register as Annex "B" to the notice of proposed issuance. We are also enclosing a copy of the proposed license.

Because your letter does not meet the requirements of the attached regulation, we cannot consider it as a request for a hearing. In the event that you choose to file a petition to intervene and request a formal hearing, you should do so within fifteen days after date of this letter.

If you have any further questions, please communicate with me.
