MEMORANDUM FOR: Docket File No. 40-8084

FROM: Noah M. Shopenn, Project Manager
 Licensing Branch 2
 Uranium Recovery Field Office, RIV

SUBJECT: 1985 LAND USE SURVEY FOR THE LISBON MILL

By letter dated August 29, 1985, Rio Algom Mining Corp. (RAMC) submitted a copy of the land use survey conducted in the vicinity of the Lisbon Mill. The survey was conducted and submitted in accordance with Condition No. 21 of SUA-1119.

My review of the information provided indicated that more mobile homes had been removed, a new road constructed, a small pond added and the restricted area fence was extended. All the changes were made since the last submittal dated September 28, 1984. These changes have all occurred in Township 29, South, Range 24 East and are as follows:

- Section 4 - one mobile removed.
- Section 9 - three mobile homes removed, two mobile homes installed. Also, new roads were constructed and a small pond added.
- Section 10 - a new road was constructed and a small pond was added.
- Section 21 - the Company restricted area fence was extended to encompass the new tailings line from the lower tailings impoundment.

RAMCO stated in the report that they ended mining operations at the MiVida Mine in January 1985.

My review of the information provided by RAMC indicated that the survey had been performed in accordance with the requirements of License Condition No. 36 of SUA-1119. The information provided indicated no major changes in land use from that reported in previous surveys. No further action is therefore necessary.
