Docket No. 030-14498

Dear Dr. Glenn:

*Hospital, Inc.*

The Winthrop Community Hospital wishes to amend its license as follows:

1. Use of radioactive material listed in 10 CFR 35.100, Schedule A, Group III, with a maximum possession limit of 2000 mCi. Preceptor statements for Drs. Steeves, Koch-Wesser, and Geary show they have the requisite training and experience. These records are on file with the recent license renewal.
2. Survey meters shall be calibrated yearly by Neil A. Gaeta as per his NRC license 20-20743-01.
3. Calibration of the dose calibrator per Reg Guide 10.8 Appendix D is amended as follows:
  - a. Calibration will be provided two times per year by Neil Gaeta using Co-57, Cs-137, Ba-133, and Co-60.
  - b. Daily constancy shall be done using Cs-137 (0.1-0.2 mCi) on all settings of radiopharmaceuticals used in the department and on Co-57 and Cs-137 settings.

Enclosed is the \$120 fee to cover this amendment. Please advise if there are any questions and I shall give them immediate attention.

Sincerely yours,

Gerard Nocton  
Hospital Administrator
