Glen Ellyn, Illinois 60137

Gentlemen:

We request that NRC License No. 21-03210-01 issued to Saint John Hospital be amended as follows:

To exempt the license from § 35.14(b) under the following conditions:

- (1) The immediate use of byproduct material is deemed medically necessary by an authorized user and cannot be obtained from normal suppliers in a timely manner. Byproduct material will then be transferred from another licensee not issued a specific license pursuant to § 32.72 or § 32.73 or § 32.74, however is licensed under Part 35.
- (2) Upon receipt, the licensee will perform all required quality control procedures prior to compounding the material or administration to patients.
- (3) All transferred material will be transported by the licensee observing applicable DOT regulations.

Our reason for requesting this amendment is to allow Saint John Hospital to provide complete, immediate medical services during non-routine emergency situations.

Thank you for your consideration of this amendment.

Respectfully Submitted,

Mark R. Anthony
