RE: License No. 13-18876-01

Effective immediately the licensed material shall be used by,
or under the supervision of Mr. Wilmer Hamilton.

Gary Baize's name should be removed from your records.

Mr. Hamilton had in-house training at our Decatur, Indiana plant.
He was on record as the Radiation Protection Officer at that
facility before being transferred to the Indianapolis location.

Enclosed is a copy of the Registration Application submitted to
the State of Indiana for an additional Cesium 137 Monitor to be
installed at our facility. Please amend our current license
referenced above to include this new monitor.

Please inform us if additional information is required.

Sincerely,
