ORDER

In a document dated June 27, 1985 (but postmarked July 27, 1985), Robert L. Anthony/Friends of the Earth in the Delaware Valley (collectively "FOE") appealed to the Commission from the issuing of eight exemptions from certain regulations to PECO. NRC regulations do not provide for an appeal from an issuance of exemptions. Rather, the granting of exemptions is generally within the delegated authority of NRC staff. We note that FOE previously submitted a 10 CFR 2.206 petition to the NRC staff raising similar concerns. Accordingly, this pleading is referred to the Director of Nuclear Reactor Regulation for appropriate action. In making this referral we express no opinion on the timeliness of the comments on the exemptions.
