Re: Amendment to materials license no. 12-00471-01

Gentlemen:

This is in request of amendment to the above-referenced materials license for the following items:

- We request authorization to name Carlos Capati, M.D., Radiologist as Radiation Safety Officer. Dr. Capati will replace F. A. Winters, M.D., in this capacity. Dr. Capati is currently listed as a physician user on the St. Mary's Hospital NRC license.
- Increase both Dr. Carlos Capati's and Dr. J. D. Ambrosini's nuclear medicine coverage to include P-32 therapy (soluble) procedures and list Dr. Ambrosini for I-131 hyperthyroidism therapy procedures. A letter, signed by Dr. Winters, documenting their participation in three (3) cases each of the respective therapy procedures, is attached. Dr. Ambrosini is currently listed as a physician user on our NRC license.
- Please list T. A. Ferry, M.D. for xenon-133 lung ventilation studies. A letter signed by Dr. Winters is enclosed documenting Dr. Ferry's participation in these studies.
- Please indicate in your records that all future correspondence from the NRC be sent directly to the Radiology Department.

Our hospital check in the amount of \$120, payable to the "U.S. Nuclear Regulatory Commission" is enclosed for the amendment application processing fee. Should additional information be needed to authorize these changes, please call Jim Mikowski or Stan Buhr of Standard Nuclear Consultants, Ltd. directly at (312) 344-7308. Thank you.

Sincerely,

Stephen O. Leurck
