Gentlemen:

This is in reference to your application dated March 23, 1978, for renewal of License No. 20-13135-02. In order for us to complete our review of your request, please submit the following additional information:

1. Please specify the manufacturer and model number of each sealed or plated source listed in item 6 of your application (see items 6[a] and [b] of the enclosed Regulatory Guide 10.7).
2. Specify the sensitivity ranges of your survey instruments and describe your calibration procedures as indicated in items 10 and 11 of the Guide.
3. Describe your facilities and equipment as indicated in item 13 of the Guide.
4. Provide your step-by-step procedures for use of the radiation sources listed in your application. These procedures should include the precautions and tools used in handling radiation sources, your procedures for conducting radiation surveys while sources are being handled, requirements for use of personnel monitoring, and your procedures for securing sources against unauthorized use or exposure at the end of each work period.
5. Provide a description of the methods, frequency, and occasions for radiation surveys of your operations and your facilities. You should include those surveys in support of source handling operations as well as the surveys performed by your consultant.

6. Describe your emergency procedures and provisions to minimize the consequences of an accident involving radioactive materials, e.g., fire or explosion (item 14[c] of the enclosed Guide).
7. Regarding your leak test procedures, submit, in detail, all the information listed on page 10.7-5, item 14[d], of the enclosed Guide.
8. Describe your waste disposal procedures (see page 10.7-5 of the Guide).

We will continue our review of your application upon receipt of this information. Please reply in duplicate, and refer to Control No. 94076.

Sincerely,

Frederick Combs
