

West Virginia School of Osteopathic Medicine

11 June 1985

Dr. Paul Guinn
U.S. Nuclear Regulatory Commission, Region II
Material Licensing Branch
101 Marietta Street, Suite 2900
Atlanta, Georgia 30323

Dear Dr. Guinn:

Re: Renewal of License Number 47-19315-01

As per our conversation today, I am submitting to you copies of our old license and the following additions:

| <u>Nuclear Material</u> | <u>Chemical and/or Physical form</u> | <u>Maximum amount</u> |
|-------------------------|--------------------------------------|-----------------------|
| ³⁵ S | Any | 250 millicuries |
| ¹²⁵ I | Any | 10 millicuries |

Add the following individuals for the materials and uses indicated:

| | |
|---------------------------------------|-------------------------|
| T.J. Mashburn, Ph.D. | All |
| Arnold H. Hassen, Ph.D. | Hydrogen 3 & Iodine 125 |
| Joan L. Moore, D.O., M.Sci(Radiology) | All |
| Kenneth W. Dowler, Ph.D. | Hydrogen 3 |

Delete the following names from the license:

Charles M. Paroda, Ph.D.
David E. Crandall, Ph.D.
Robert J. Gronan, Ph.D.
Harold E. Loubach, Ph.D.

I am enclosing forms as previously submitted regarding background and training for the new individuals to be added to the school's license. I am also enclosing the CERTIFICATE OF DISPOSITION OF MATERIALS which accompanied the form. I trust that all of this is sufficient to cover the renewal of our license, as we continue operations on campus as regulated by our old license. Thank you very much for all your kind help over the telephone today. Please do come and visit us here in Lewisburg. It really is almost heaven - in this part of the state of West Virginia.

Sincerely yours,

Joan L. Moore
