Ms. Patricia Vacca  
Material Licensing Branch  
Division of Fuel Cycle and Material Safety  
Nuclear Regulatory Commission  
Washington, D.C. 20555

SUBJ: License 43-03299-01

Ms. Vacca, This is a request for amendment 34 to NRC license 43003299-01.

We have ordered a RADX Ventil-Con II and would like to change the way we store and use Xe-133. Attached please find an Application for Materials License for this amendment, and supporting pages which describe routine use, emergency procedures, room ventilation, etc.

  
Wesley W. Wooten, Ph.D.  
Radiation Safety Officer
