Mr. Sia Afshari
Radiation Monitoring Devices, Inc.
44 Hunt Street
Watertown, Massachusetts 02172

Dear Mr. Afshari:

This letter is in reply to your correspondence of April 18, 1985 and June 4, 1985, concerning your company's application for device registration of your Compuglass product.

According to your request in our phone conversation of June 12, 1985, I have deleted from your written request of June 4, 1985, your Figure 3a as proprietary information. Also, I have noted your request to decrease the extent of the declared proprietary information sections as described in your letter of June 4, 1985. Unfortunately, we are not able to make a finding of proprietary information for your Figures 1, Drawing No. A402-3004, and 2, Drawing No. A402-3005, at this time based upon the requirements of 10 CFR 2.790, a copy of which is enclosed. If this position is acceptable to your company please advise me accordingly as provided in 10 CFR 2.790. However, if you continue to feel that these figures require proprietary status, please resubmit your proprietary claim in conformance with 10 CFR 2.790 and I will refer your request to our Office of the Executive Legal Director for their opinion and appropriate action. I will resume review of your application upon resolution of this matter.

If I may be of any assistance in the meantime, please contact me at (301) 427-9026.

Kindest regards,

Sterling W. Bell

SUBJECT

Amendment of Dupont License

SUMMARY

47-01876-01, Control # 1899

Asked Maggett if the RMD device
being manufactured for Dupont had been
approved.

We said the device is essentially approved
except the information submitted by Dupont
is marked proprietary. Dupont has
been contacted regarding this but
no reply to date. I told Maggett
Our copies are also marked proprietary.

I told Maggett we would hold
this until the above problem has
been resolved.

7/11/85 Maggett Called - have not received reply to
letter referenced above - PB

ACTION REQUIRED

Wait for Maggett's approval
