SUBJ: Proposed Amendment No. 5  
N.R.C. Amendments License No. 36-21137-01  
Docket No. 030-19828

Dear Ms. Riedlinger:

It is our understanding that any time a portion of our license changes, we must resubmit the new information in letter form to the Nuclear Regulatory Commission. We propose that the following changes be approved in Amendment No. 5 to our license.

Item #24 pertains to our supplier of monitoring devices. We no longer use Radiation Detection Company, Sunnyvale, California. The company which now monitors our badges is Siemens Gammasonics, Inc., Health Physics Service, Des Plaines, Illinois 60018.

Item #7 Two members of our Medical Isotopes Committee (now called Radiation Safety Committee) have retired. The members of the Radiation Safety Committee are:

R. K. Stevens, M.D., Radiologist and Radiation Safety Officer  
Ron LaChance, Chief Technologist, Alternate Radiation Safety Officer  
Philip I. Wagner, M. D. - Cardiologist  
Karllyn Wagner, R.N., Nursing Representative  
A. Gerson Hollander, M. D., Chief of Staff-Management Representative

Sincerely,

*Dennis J. Norman*
