Mr. Earl Wright
U.S. Nuclear Regulatory Commission
Region II, Suite 2900
101 Marietta Street, NW
Atlanta, Georgia 30323

Dear Mr. Wright:

U.S. NUCLEAR REGULATORY COMMISSION BY-PRODUCT MATERIALS LICENSE 01-06113-05

This is to confirm our recent telephone conversation concerning the subject license. The Americium 241/Beryllium sources listed as item I on the license were purchased for use as neutron check sources at the plant sites. These sources were transferred to the plant sites several years ago, and are carried on their nuclear materials inventory. Because these sources are not being used under our license, they should be deleted.

The requested copies of our operation procedures are attached. I hope this will provide you with all the necessary information to proceed with the license renewal.

If you have any questions, please call me.

Sincerely,

Bill Raines

W. L. Raines, Supervisor
