1. We request that license number 23-01002-03 be amended so that the Medical Center Radiation Safety Committee may approve as users radiation oncologists that:
 - a. Possess a license to practice medicine in the United States or its territories or the District of Columbia, and
 - b. Are certified by the American Board of Radiology in Therapeutic Radiology, or
 - c. Have been previously authorized by name to perform teletherapy treatments by a USNRC or an Agreement State License.
2. Radiation oncologist that do not meet the above criteria would have to be approved by the USNRC.
3. The amendment is requested in order to allow any radiation oncologist meeting the above criteria to come to the Medical Center with minimum disruption of patient treatment due to the user approval process.
4. We request that subject licenses be amended such that Van H. McComas is the Associate Radiation Safety Officer. Attached is NRC form 313M supplement A.
