Please refer to my memorandum of March 27, 1959, with which two investigation reports and a cover memorandum by SAN Inspection Division were transmitted to you. An interpretation of certain license provisions and certain comments were asked for in connection with these reports before further investigation is scheduled.

We believe this case presents a potential problem in public relations; it also involves interpretation of regulations. Since we would like to complete our investigation as soon as possible, we would appreciate your comments on this matter.
