Gentlemen:

This is in reference to your request for a byproduct material license amendment in the name of St. James Community Hospital, Inc.. In order for us to complete our review of your request, please supply the following:

A completed Supplement B, Form NRC 313M, documenting the training and experience that Dr. Mathers received at Deaconess Hospital, Spokane, Washington, or any other medical institutions. Procedures or training conducted under a private office license is not acceptable and should not be listed. Separate Supplement B Forms should be submitted to document training and/or experience received at different approved institutions or under the supervision of different preceptor-physicians. Review of previously submitted information indicates the need for an additional 380 hours of approved clinical training.

We will continue our review of your application upon receipt of this information. Please reply in duplicate and refer to Control No. 60391.

Sincerely,

Original Signed By
