Materials Licensing Section
Region II, Atlanta, GA

Dear Sirs,

Please find attached an application ammendment, FORM NRC-313 I, which indicates a number of changes to our original application. Changes include individual who has assumed responsibility of the Radiation Safety Program (RSO), individuals authorized to use/supervise the use of licensed material, location of the Lixiscope and licensed material, and documentation for all of the above.

Please find also a check for \$60.00 to the order of U.S.N.R.C for processing of this ammendment.

Should you have any questions regarding anything pertaining to our possession or use of the Lixiscope or Iodine-125 source, please ~~contact me~~ at (703)471-5110 or write to me at the above address. I look forward to working with you hereafter.

Sincerely,

CHRISTOPHER L. SCHOLBE, R.S.O.
